## **Meet our Hannaford Dietitians!**

Hannaford offers FREE nutrition education online and in many stores. You can stop by and see them during their scheduled hours or even coordinate a time that works for you and your dietitian to chat about your nutrition questions.

Dietitian services include:

- Nutrition education for your school, work or community group
- Healthy eating tips, recipes and ideas for healthier family meals
- Advice for making the most of your pantry staples and shopping on a budget
- Help understanding food labels and portion sizes
- Help with special dietary needs

## Find us online

We offer FREE online nutrition education including a class on Heart-Healthy Eating. You can join your Hannaford Dietitian to learn how to fill your cart to protect your heart and take a look at foods that can help improve your blood pressure, cholesterol and overall health.

Visit **hannafordnutrition.eventbrite.com** to see all the great topics and to sign up for an upcoming class.

If you're not interested in a class, but have a nutrition question, you can email a private message to our staff registered dietitian at **dietitian@hannaford.com**.

## Find us in-store

Visit **hannaford.com/dietitians** to find a dietitian near you and see their monthly schedule of events.

## **Hannaford Pharmacy**

Hannaford Pharmacy is here to meet all your prescription needs with a full range of services to help you save time and stay safe and healthy.

#### Healthcare Professionals

Available to answer questions with expertise and care.

## **Immunizations**

Flu, shingles, pneumonia and more with no appointment needed. Immunization availability and age requirements vary by state. COVID-19 vaccinations by appointment; walk-in availability subject to change.

## Hassle-Free Transfers

Just drop off your current pill bottle, and we'll do the rest.

## Refills Made Simple

Coordinate your prescriptions and enjoy the convenience of a single trip to the pharmacy. No more worries about forgetting to call for your refills or running out of your medications.

## Hannaford Rx App

Take control of your health with hassle-free prescription management. Download from your favorite app marketplace.

## Same-Day Delivery, Curbside Pickup and Mailing\*

Three easy contact-free ways to receive your prescriptions.

\*Select product and insurance plan restrictions may apply.

FREE reward chart to encourage children to take medication as prescribed. Prizes for completed charts.

## Third-Party Insurance Plans

Most prescription insurance plans are accepted.

Whether it's expertise on prescription management or providing information on supplements and over-the-counter items, we're here to help! We carry many products you need to help manage your blood pressure and heart health. Your Hannaford Pharmacy is a convenient, affordable solution to maintain good health for your entire family.

## What is Heart Disease?

Heart disease is the leading cause of death and illness among men and women in the United States. It occurs when cholesterol (fatty substance) in your bloodstream builds up and slows or restricts blood flow to the heart. Many factors can contribute to heart disease including:

- age
- gender
- family history
- smoking and alcohol use
- stress
- physical inactivity

- high blood cholesterol
- high blood pressure
- diabetes
- · obesity and being overweight
- diet and nutrition

To decrease your risk of heart disease - or if you have already been diagnosed with heart disease - nutrition and lifestyle changes are often recommended by healthcare providers.

## **Know Your Numbers**

**LDL (Lousy) Cholesterol** contributes to fatty plaque buildup that narrows arteries and raises your risk for heart attack and stroke. Decrease LDL by reducing saturated and *trans* fat and reducing excess cholesterol.

**HDL** (Healthy) Cholesterol helps reduce risk for heart attack by carrying LDL cholesterol away from the arteries and back to the liver, where it is broken down and removed from the body. Increase HDL by incorporating more fiber, whole grains and omega-3 fatty acids (omega-3s).

**Triglycerides** become elevated when we take in more calories than we use. The body converts these calories into triglycerides that can be stored as energy for later use. High levels of triglycerides can contribute to hardening of the artery walls and place you at risk for type 2 diabetes. Decrease your risk by adjusting portion sizes, increasing activity and avoiding added sugar.

**High Blood Pressure** makes the heart work harder to pump blood, leading to stiffening of the arteries and preventing proper blood flow. Help decrease your risk by reducing added sodium and increasing the right vitamins and minerals such as potassium.

## **Guiding Stars® & Heart Health**

Guiding Stars at Hannaford is an in-store and online resource that can help you quickly find the nutritious foods that you need to meet your heart-health nutrition goals. Foods and beverages with one, two or three Guiding Stars have more fiber, whole grains, omega-3s, vitamins and minerals and have less saturated and *trans* fat, cholesterol, added sodium, added sugars and artificial colors. As you shop for hearthealthy foods, look for those with one, two or three stars as the foundation of your diet.

One, two or three Guiding Stars means foods and beverages have\*:

## **MORE**

Vitamins Minerals Fiber Whole Grains Omega-3s

#### LESS

Saturated Fat Trans Fat Added Sodium Added Sugars Artificial Colors

More Guiding Stars means more nutritional value.

GUIDING STARS®
NUTRITIOUS CHOICES MADE SIMPLE

One star, good nutritional value.

Two stars, better nutritional value.

Three stars, best nutritional value.

#### No stars?

If the shelf tag has no stars, it simply means one of two things:

The food doesn't meet the nutritional criteria for Guiding Stars.
OR

## The food is exempt from the program.

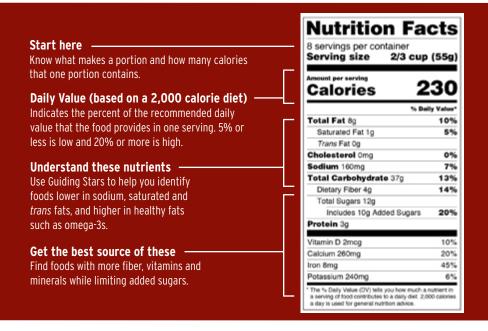

Spices, supplements, baby formula and alcoholic beverages are exempt from being rated by Guiding Stars.

\* For more information on Guiding Stars visit hannaford.com/guidingstars.

## **Nutrition Facts 101**

Guiding Stars® has done most of the work for you by identifying choices that have the most nutritional value. However, it's important that you read the label to be sure the product meets the specific nutritional needs that your doctor recommends.

## Rules of Thumh

- Saturated Fat Aim for foods with a saturated fat % DV of 7% or less.
- Trans Fat Keep as low as possible. O a trans fat is best!
- Cholesterol Keep as low as possible. Foods with low saturated and trans fat naturally contain less cholesterol.
- Sodium A food is considered low in sodium when it has 140 mg or less per serving.
- Fiber Strive to eat foods with 2 to 3 g of fiber per serving. Aim for 25 to 38 g of fiber per day.

4

## Finding the Fats We Need

## Omega-3 Fatty Acids

Omega-3s are fatty acids found in foods. Your body needs omega-3s but can't make them. For that reason, they are called essential fatty acids, meaning you must get them in your diet. Omega-3s are used by the body in many ways, such as to help control blood clotting and during pregnancy for the baby's brain and eye development and function. Omega-3s may also help reduce inflammatory responses in the body.

## Foods with Omega-3 Fatty Acids

#### Nuts & Seeds:

- Flaxseed oil
- · Ground flaxseeds
- Walnuts

## Some Green Vegetables:

- · Brussels sprouts
- Kale

#### Fish:

- · Tuna Sardines
- · Salmon · Herring
- Mackerel

## More Heart-Healthy Fats

#### Monounsaturated Fatty Acids:

- · Olive oil Avocado
- · Canola oil · Nuts and seeds
- · Peanut oil

Source: American Heart Association

#### Polyunsaturated Fatty Acids:

- · Safflower oil · Soybean oil
- · Sunflower oil · Vegetable oil spreads
- · Corn oil

## 10 Habits to Get You Started

- Include one or two servings of vegetables and fruits at every meal or snack.
- 2 Try meatless dishes made with beans (kidney, garbanzo, black) or lentils.
- When choosing whole grains, look for the word "whole" as one of the first two ingredients listed.
- Drain and rinse canned fish, beans and vegetables.
- 5 Buy plain yogurt and add your own fruit.
- Season foods with fresh or dried herbs 6 and spices instead of using salt.
- Substitute up to a half whole wheat flour for regular flour in muffins, quickbreads, cookies and pancakes.
- Limit foods that contain "Hydrogenated" and 8 "Partially Hydrogenated" in the ingredients list.
- Monitor portion sizes (see our easy-to-use 9 guide included in this booklet).
- Shop with the included grocery list to help you stay on track. Aim to fill your cart with foods that earn Guiding Stars®!

## **Portion Control Guide**

## Fruits and Vegetables

#### What is a serving of fruit or vegetable?

• 1 cup salad greens (about the size of a baseball)

- Artichokes
- Mushrooms
- Bell peppers
- Onions
- Broccoli
- Peas
- Carrots
- Squash Tomatoes
- Eggplant Green beans
- Zucchini
- · Leafy greens

## **Fruits**

Choose fresh and in-season whenever possible. When choosing canned, opt for those in their own juice vs. heavy syrup.

- Apples
- Lemons
- Avocado
- Melon
- Banana
- Oranges
- Berries Cherries
- Peaches Pears
- Dates
- Plums
- Figs
- Pomegranates
- Grapes

## **Herbs & Spices**

Add flavor without adding salt!

- Basil
- Parsley
- Cilantro
- Rosemary
- Cinnamon
- Thyme
- Cumin
- Oregano
- Nutmea
- Pepper

## Healthy Fats/Oils

- Extra virgin olive Canola oil
- Grape seed oil
- · Avocado oil

oil

#### Beans/Legumes

An inexpensive way to add fiber and protein to a meal. When using canned, look for low sodium or simply drain and rinse before using to reduce sodium.

- Black beans
- · Navy beans
- · Cannellini beans · Green lentils
- Chickpeas (garbanzo)
- Red lentils Yellow lentils
- Great northern

#### **Nuts & Seeds**

For healthy fats, fiber and protein!

- Almonds
- Peanuts
- Brazil nuts
- Pine nuts
- Cashews
- Pistachios

- · Chia seeds
- Pumpkin seeds
- Flaxseeds
- Sunflower seeds
- Macadamia
- Walnuts

#### **Grains**

Look for the word "whole" as one of the first two ingredients.

- Amaranth
- Quinoa
- Barley
- · Rice (brown, wild)
- Bulgur

- Sorghum
- Couscous
- Teff
- Oatmeal
- Pasta (whole
- Macadamia
- wheat)

#### **Lean Proteins**

- · Beef (top round, eye of round,
- Pork tenderloin Salmon
- top sirloin)
- Sardines
- Bison Chicken breast
- Tilapia Tuna
- Cod
- Turkey breast

## Dairy/Eggs

Choose low-fat or fat-free dairy sources.

- · Cheese, low-fat
- Milk, low-fat or skim
- Plain vogurt
- Egg whites (limited yolks)
