

## Healthy Living at Hannaford

### Breakfast

The most important meal of the day (especially for kids)! Would you run your car with no gas? Don't let your kids go to school without the proper fuel! Here are some reasons why breakfast is so important for the growing mind.

- Studies show that children who eat breakfast regularly do better on cognitive tests than those who don't.
- Eating breakfast has been shown to help maintain a healthy weight. An ideal breakfast combines complex high-fiber carbohydrates with lean protein and healthy fat. Whole-grain cereals, breads and waffles give you the fiber you need to work toward your recommended daily amount of 17-31 grams. These slow-digesting carbohydrate choices keep you fuller longer, which helps you stay satisfied until your next meal. The right protein and fat help with this too.
- Breakfast sets the pace for a day of good eating all day long.

### Easy, quick breakfasts:

- Kashi Instant Oatmeal, half a banana
- Breakfast Banana Split (see recipe here)
- Smoothie-  
frozen strawberries  
Dannon Yogurt  
1/4 cup Tropicana Orange Juice,  
2 tablespoons flaxseed
- Whole-grain Kashi cereal, low-fat milk (cow, almond or soy) and berries
- Whole-wheat toast or Kashi 7-Grain Waffle topped with Promise Buttery Spread and berries, and 4-6 oz Tropicana Orange Juice

### Breakfast Banana Split

#### Ingredients:

- 1 banana
- 1/2 cup strawberries, sliced
- 1/4 cup blueberries
- 6 oz Dannon Lowfat Yogurt (any flavor)
- 2 tablespoons Bear Naked Granola

#### Directions:

- Peel banana; slice lengthwise. Place banana in serving dish and separate halves. Place half strawberries and blueberries on banana slices. Gently spoon yogurt over berries. Top with remaining berries; sprinkle with granola.
