## GENERAL ROASTING TIPS

### preparation

Preheat oven to 325°F (350°F for beef rib roasts). If desired, season the roast before cooking with an herb rub applied to the surface. Place roast, fat side up, on a rack in a shallow open roasting pan. Insert an ovenproof meat thermometer into the thickest part of the roast, not resting in fat or touching bone.

### cooking time

Cook roast 15-20 minutes per pound, using a meat thermometer to test for doneness: **135°F indicates medium rare, 150°F indicates medium.** Let stand 15-20 minutes in a warm place to let the meat juices firm up. The internal temperature of the roast will rise 5-10°F during this time.

## CHEESE SHOP

Not sure how to pair your perfect cheese? Allow us to suggest a few of our favorites.

### PLANNING A CHEESE BOARD?

Allow 4 oz. of cheese per adult.

Let cheeses stand at room temperature for 45 minutes to an hour before serving to release their full aroma and flavor.

Choose cheeses, accompaniments and beverages from the same region. Because they share the same **terroir**, or "taste of place," they make natural pairings.

### HOW DO WE DECIDE WHICH WINES BECOME HANNAFORD SELECTS?

Our wine buyers are out in vineyards every day - visiting wineries, tasting and testing what they want to buy. We take a number of things into consideration: Where is it from?
